Services we are authorised to provide

nexa Life Solutions has authorised me to provide general advice only in the following areas:

- Life Products – Life Risk Insurance Products
- Life Products – Superannuation

FailSafe Insurance Services Pty Ltd has determined, that to best serve the interests of our clients, that working with a limited number of providers will enhance the service offering we can provide. The reduced number of providers facilitates the Authorised Representative's having specialist in-depth knowledge of the products - it also allows the business to have access to a Premium Service Offering from these product providers.

The Premium Service Offering provides access to:

- A dedicated underwriter – this benefits both our clients and the business by being able to engage on a case- by case basis in relation to terms, information requirements and delivery times.
- A dedicated administrative support to facilitate timely responses to ensure our clients receive service and support.
- A dedicated business development manager – a direct line for feedback, access to technical support

We have elected to provide services under the NEOS platform who offer the following insurance products:

- NEOS Protection
- Encompass Protection

These Insurance products are market competitive both in product features and costs.

There may be instances where we may provide services to alternate Insurance product providers.
